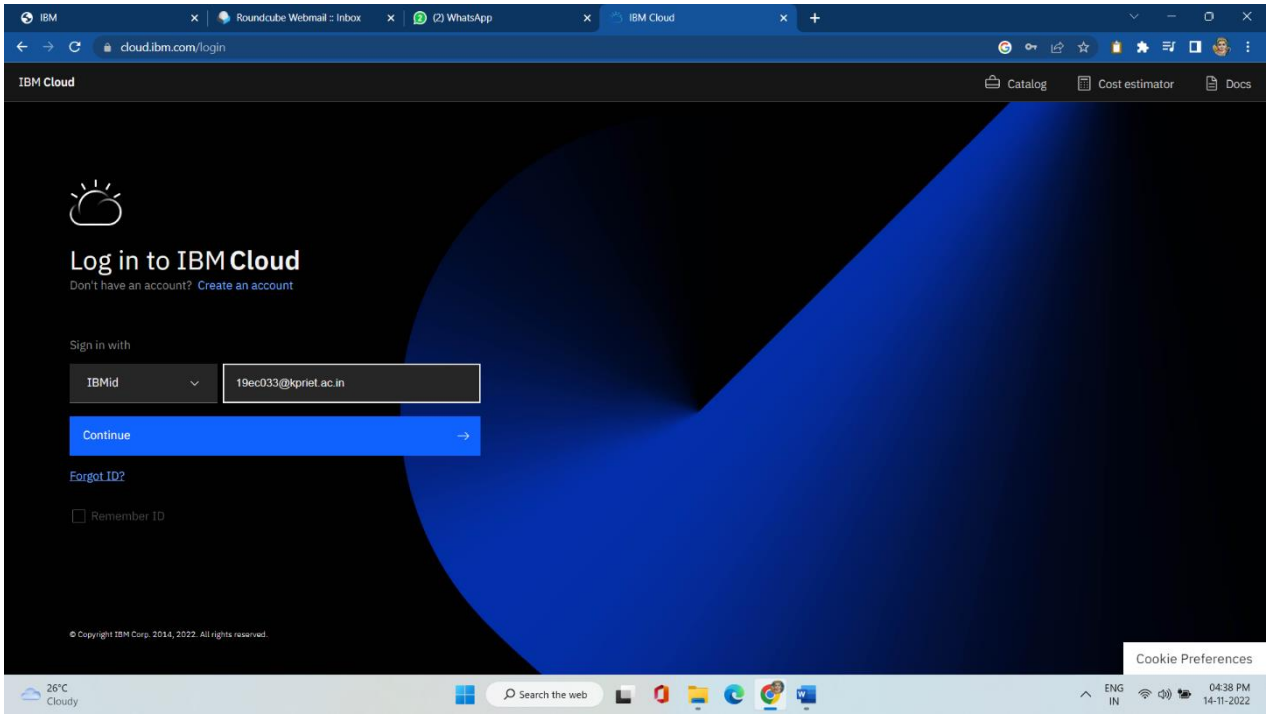
Create A Database In Cloudant DB

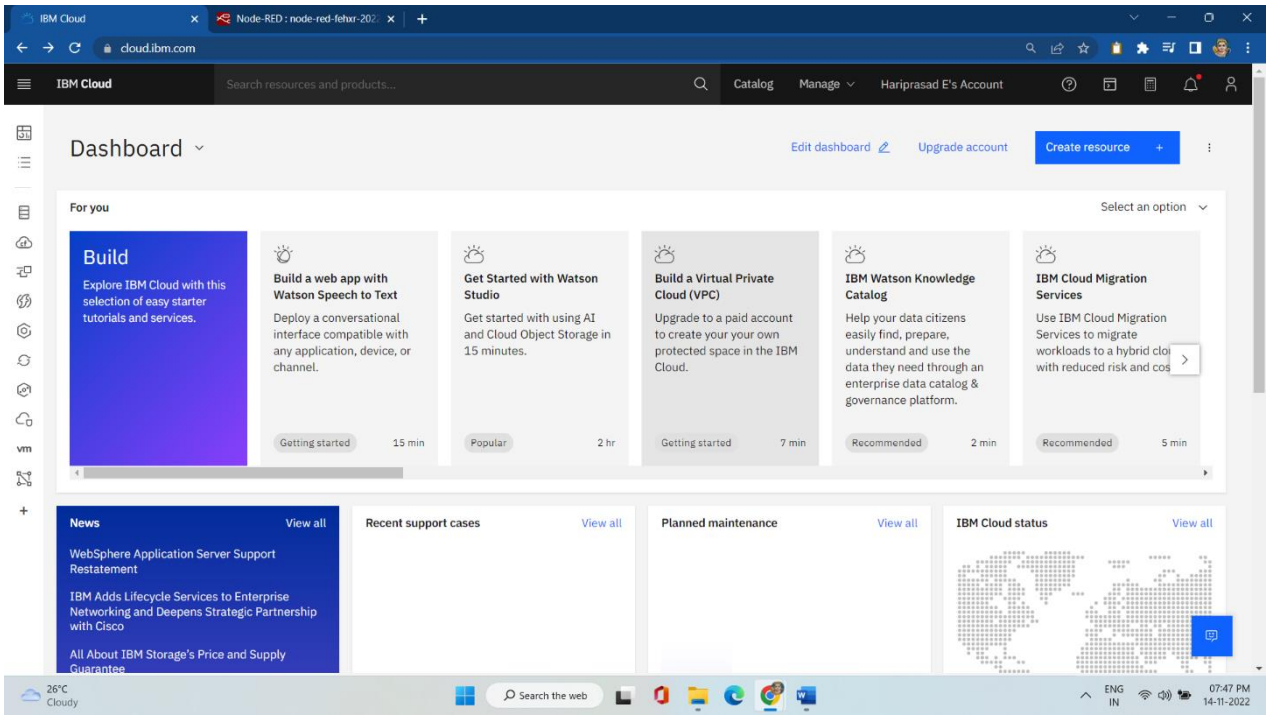
Aim: To create a database in Cloudant DB to store location data.

Steps followed:

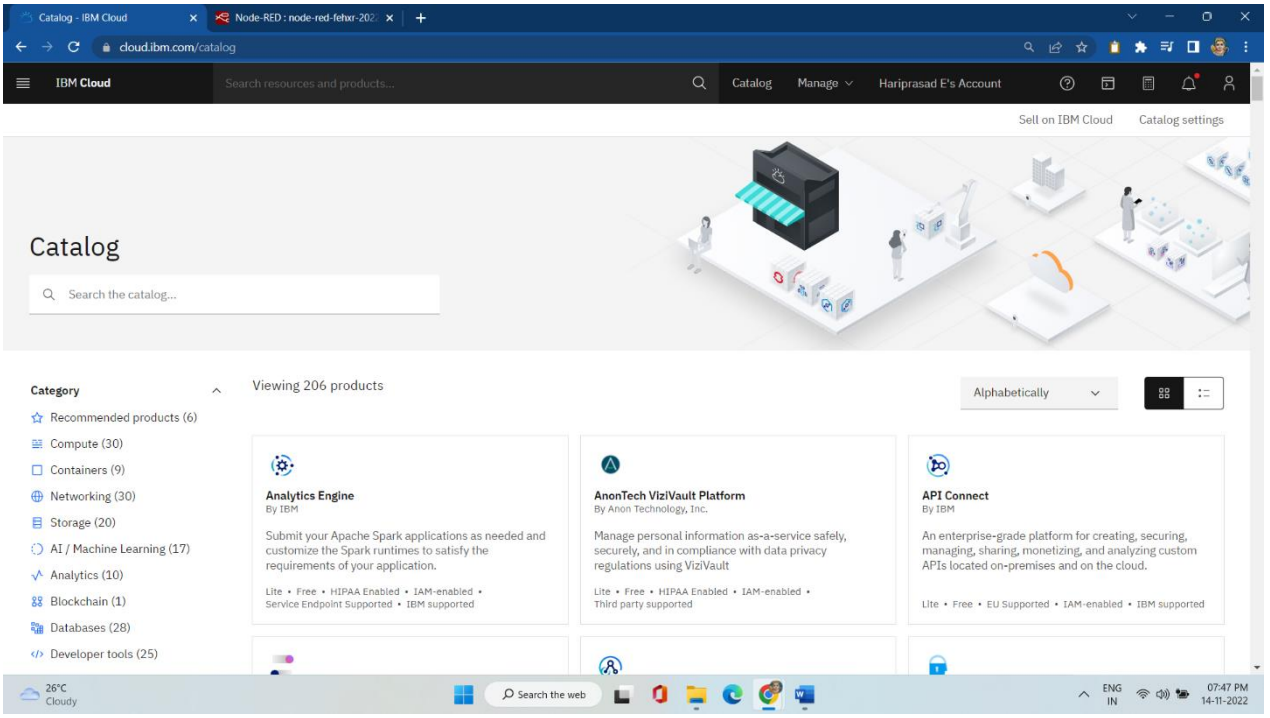
1. Logged in to IBM Cloud account



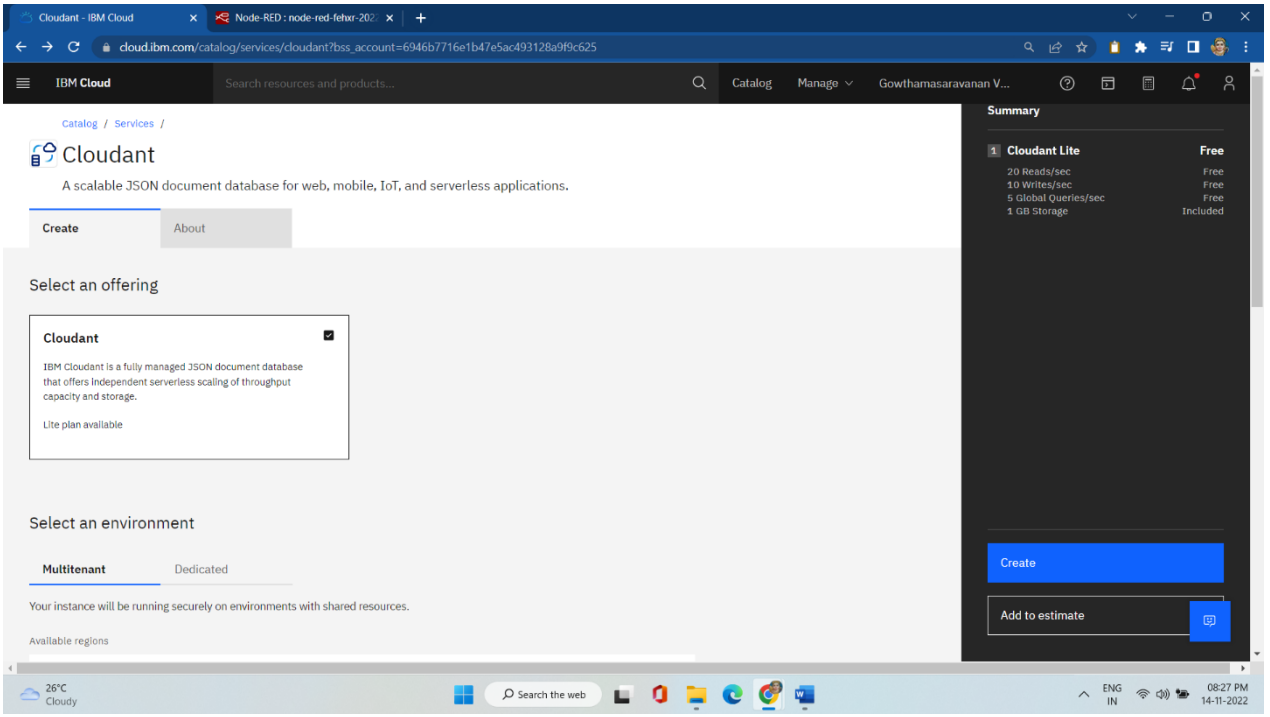
2. Clicked on the “Create Resource +” button



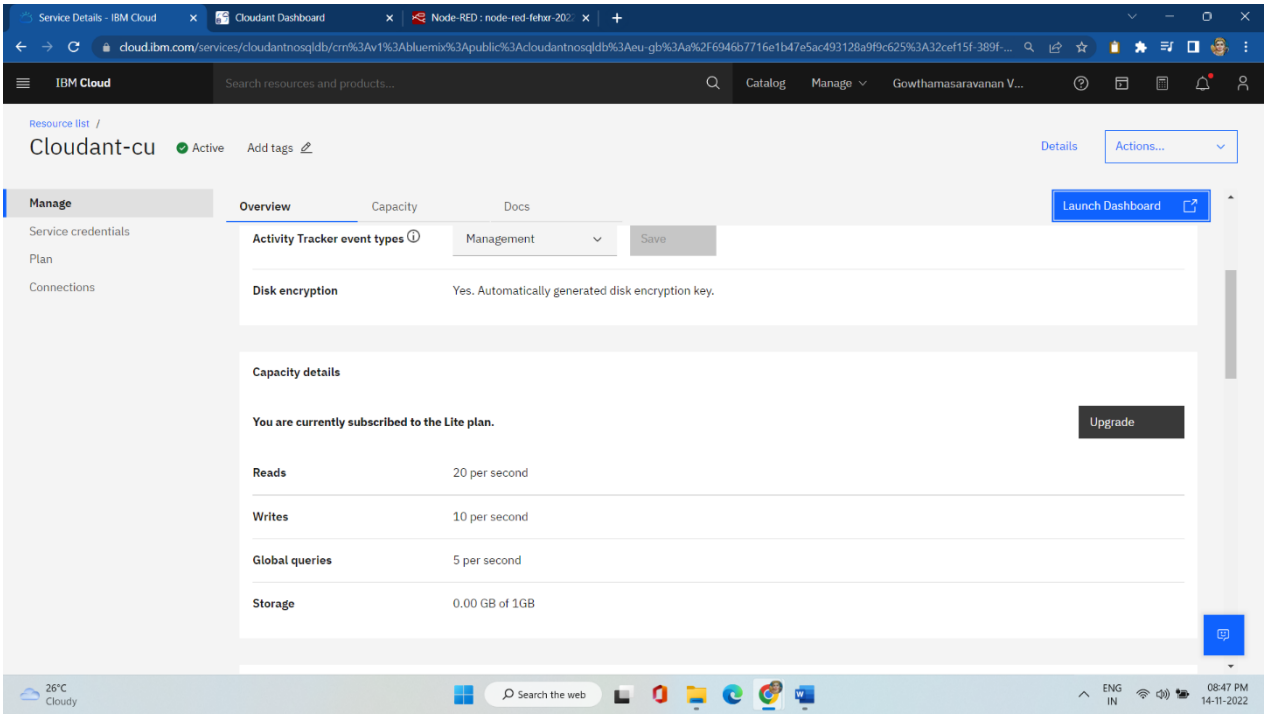
3. Searched for “Cloudant”



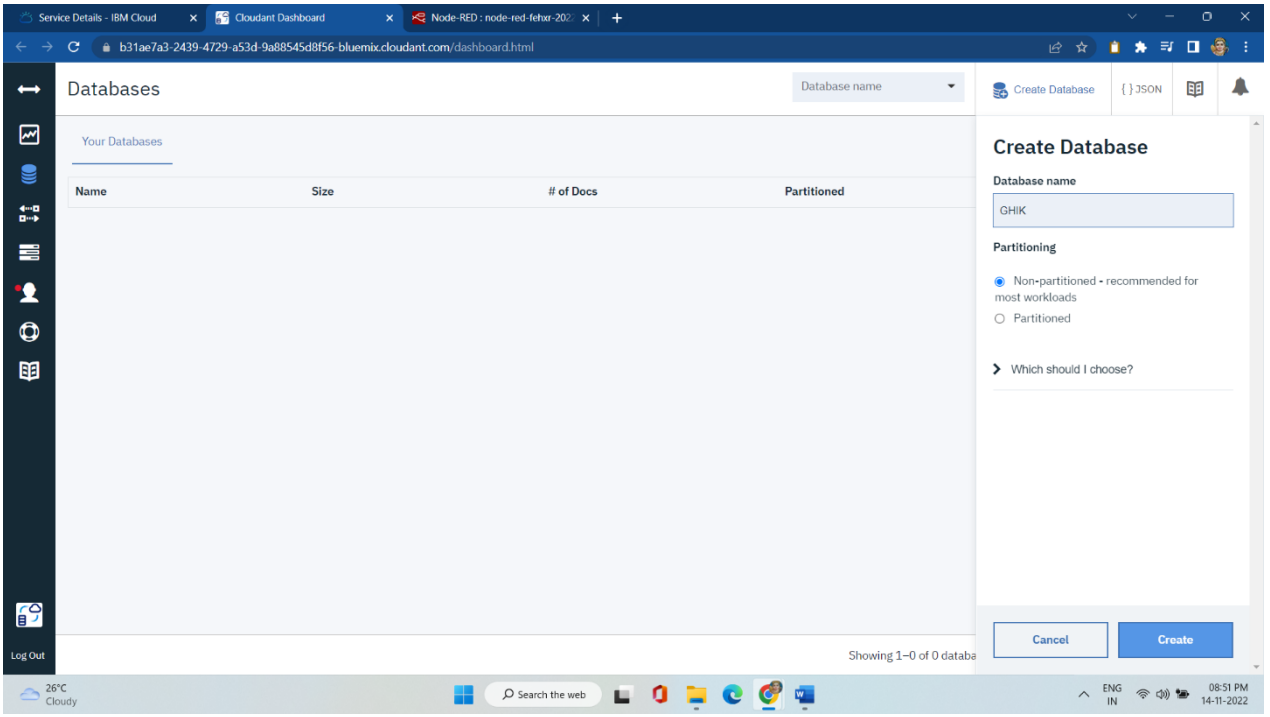
4. The Cloudant database resource was created successfully



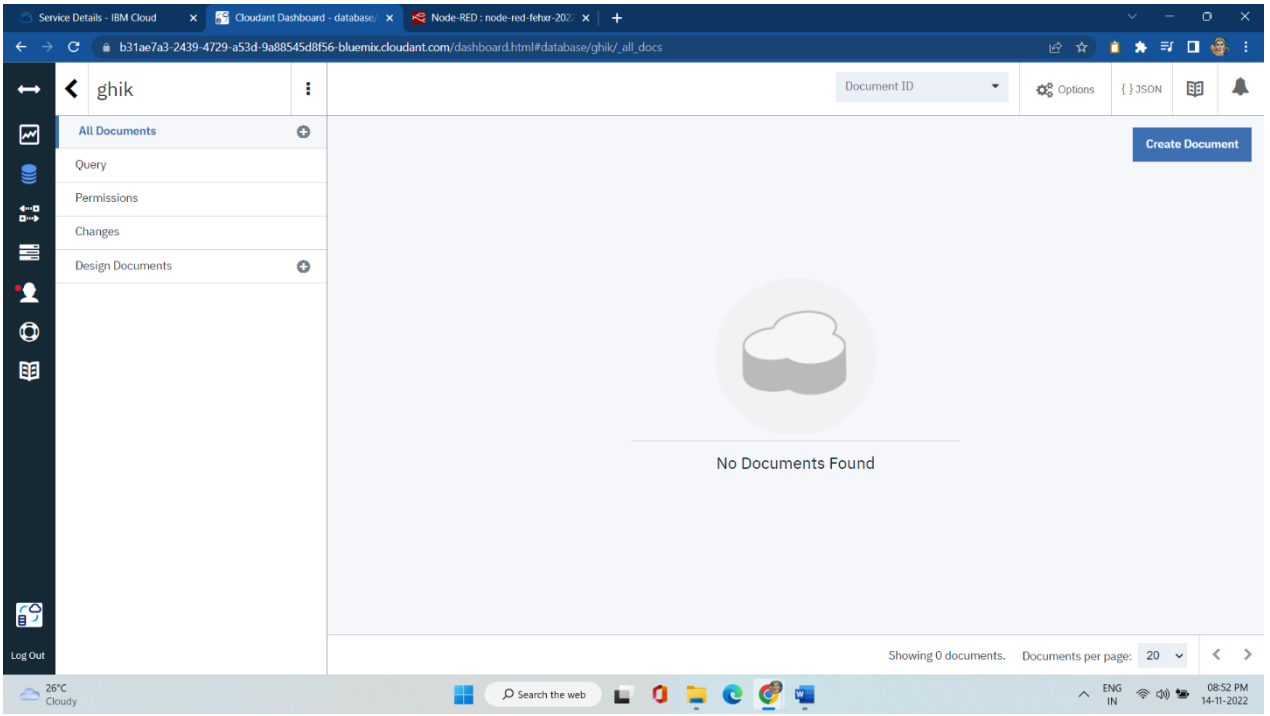
5. Click on Launch dashboard



6. Clicked on “Create Database”. Entered “ghik” as the databasename and the “Non-partitioned” option



7. The database “ghik” was created successfully



Result:
A database to store the location data was created successfully on Cloudant DB
